Security Barrier

The Crealco Guardian security barrier for windows and doors is the latest addition to the Crealco product range. The Guardian security barrier is a robust yet aesthetically appealing security barrier system offering the assurance of safety in your home and business space. The Guardian has a unique sliding insert in the upright bottom-end to accommodate for uneven floor levels.

FEATURES

- Accommodates uneven floor levels with unique upright, flight and bottom guide design
- Tamper proof due to double lip head rail with unique wheel placement design
- Added security with stainless steel bar insert into bottom guide (optional - refer to manual for DIY)
- No dirt and dust collection due to low bottom track with no cavities
- Slam lock option available
- Crealco components available in black or white

FINISH

- Available in white and bronze powder coated finishes - other colours available on request
- Finishes match the Crealco patio doors and sliding windows

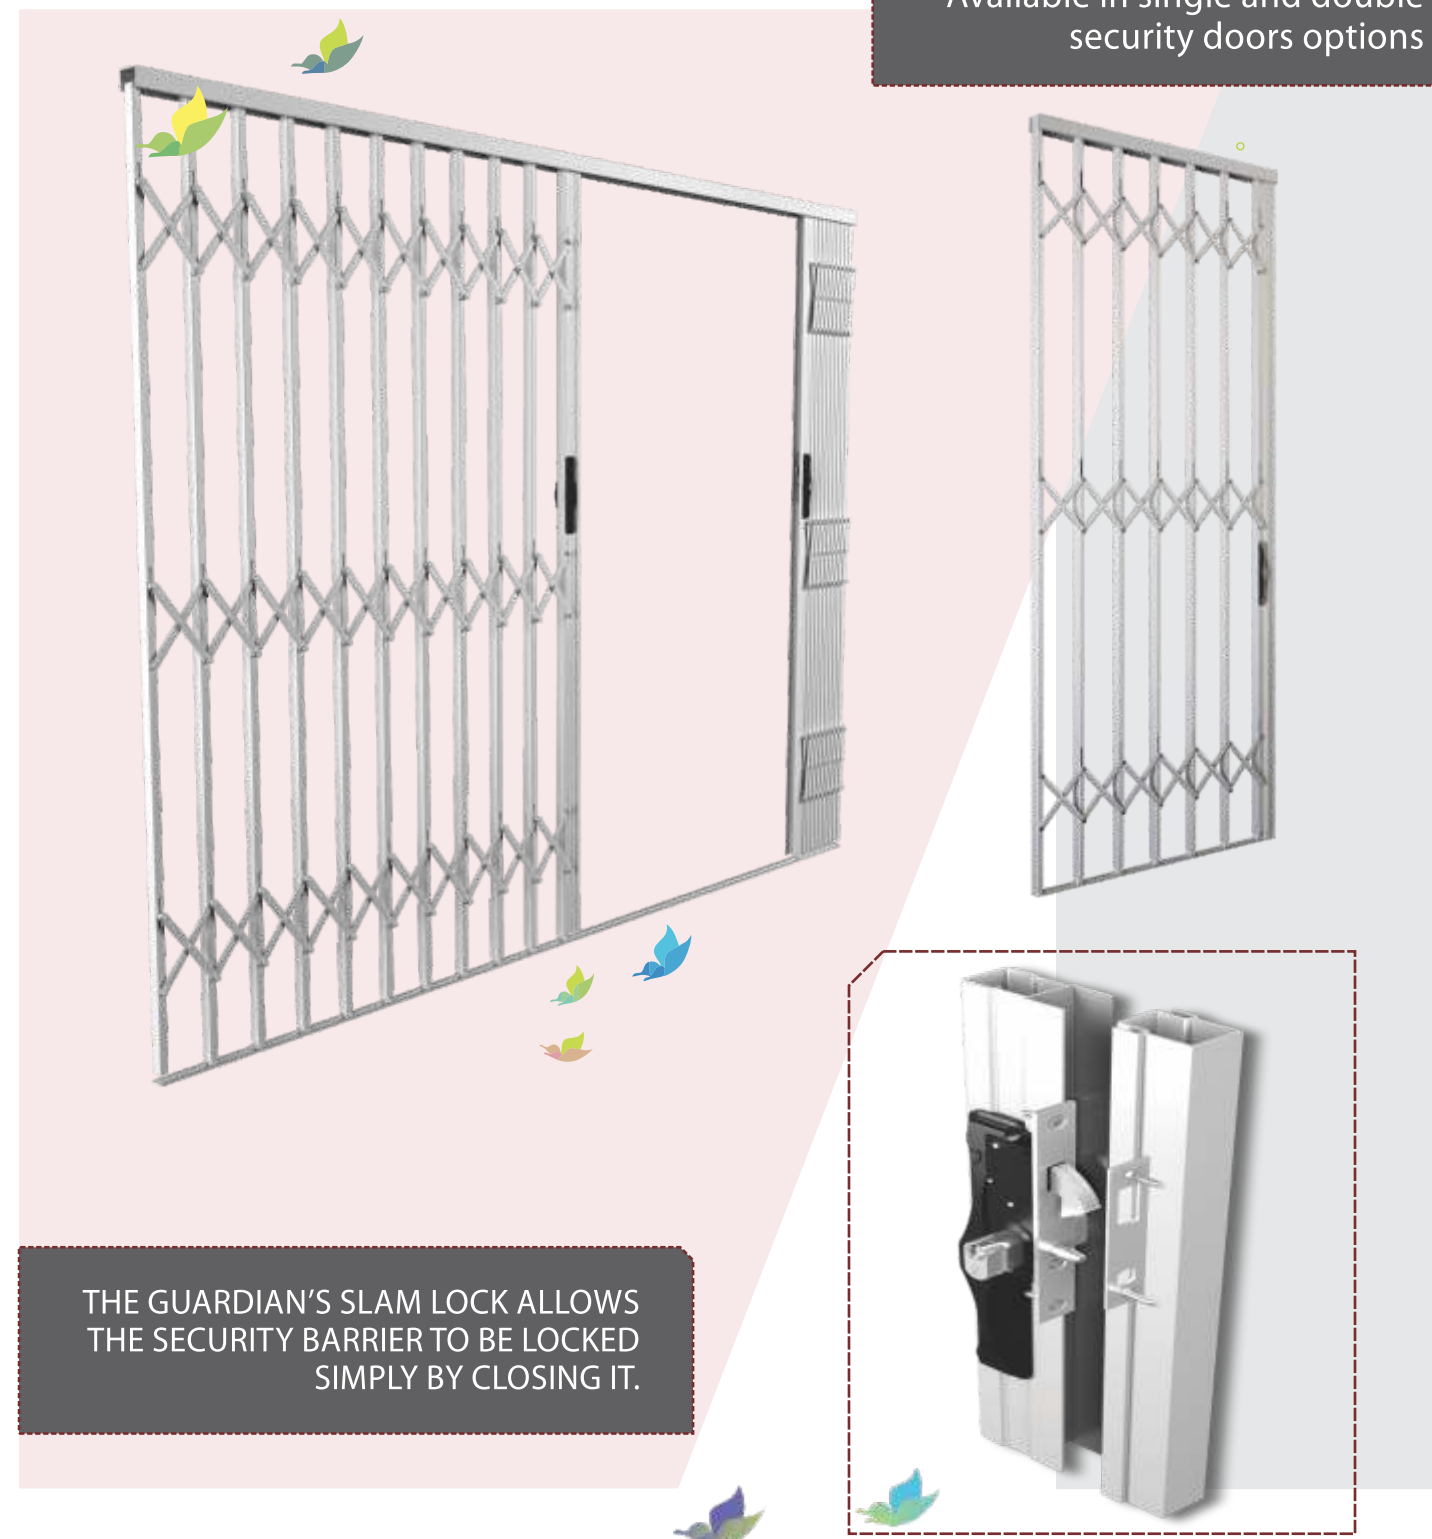

HARDWARE

- Hardware designed to give minimal lateral movement
- Unique hardware designed to ensure quality of the product
- Spare parts are available from Wispeco appointed stockists nationwide

TYPICAL CONFIGURATIONS

Available in single and double security doors options
